International Society of Microbiota

Scientific Agenda

Targeting Microbiota 2019
Towards Clinical Revolution

October 10 - 11, 2019
Park Inn Hotel - Krakow, Poland

www.microbiota-site.com
On behalf of the International Society of Microbiota, we are pleased to inform you that the 7th World Congress on Targeting Microbiota will be organized in Park Inn Hotel - Krakow, Poland, on October 10 - 11, 2019.

During those days, a lot of oral and poster presentations will be introduced and will cover many hot topics:

- Microbiota 2019: Recent Advances & Perspectives
- Microbiota Metabolites and Metabolome: Challenges & Perspectives
- Challenges of microbiota-host cross-talk understanding and intestinal microbiome signaling to extraintestinal organs
- Microbiota & medicine of tomorrow: Development of effective therapeutic strategies to manipulate the gut microbiota
- New Session dedicated to Built Environment Microbiome
- Special Workshop dedicated to Skin microbiota 2019: From basics to applied cosmetics and skin care
  - The first part - Skin Microbiota: Recent advances and perspectives
  - The second part - Strategies to modulate and affect skin microbiota in health and diseases

I do believe that this would be the best future strategy for the 7th World Congress of Targeting Microbiota in 2019: strong communication between basic, pre-clinical scientists and clinicians.

Microbiota & Medicine of Tomorrow: The Revolution

The Microbiota and microbiome are transforming deeply our understanding of Medicine of tomorrow. It is really a revolution which allows us to rethink and redesign our strategies about the way we will prevent and treat many diseases and pathologies.

Among the strategic questions which will be debated:

- How can all big data generated by microbiota sequencing or the metabolome be used?
- Can we speak about Artificial Intelligence and microbiota medicine?
- What is the credibility of tests, devices probiotics the market?

I hope to meet you at the next meeting to capture moments of conviviality and scientific inspirations and to study the various aspects of the microbiota with the best scientists we have in the world.

Krakow is a unique place for visitors and offers the most convenient and pleasant settings for international congresses, and has the oldest and largest academic centers in Poland. The city is famous for its historical old town (UNESCO World Heritage Site) along with the Wawel castle and the city’s Kazimierz district. Krakow can be easily reached by plane, train or car.

Looking forward to seeing you soon,

Our warmest regards.

Prof. Peter C. Konturek - President of ISM
Teaching Hospital of the University of Jena, Germany
Targeting Microbiota
Towards Clinical Revolution

October 10-11, 2019 - Park Inn Hotel - Krakow, Poland

Congress Sessions:
- Microbiota 2019: Recent Advances & Challenges
- Microbiota Metabolites and Metabolome: Challenges & Perspectives
- Workshop: Skin microbiota 2019: From basics to applied cosmetics and skin care
- Session on Built Environment Microbiome
- Microbiota & medicine of tomorrow: Development of effective therapeutic strategies to manipulate the gut microbiota
- Round Table Discussion: The Scientific Committee will discuss two topics:
  - The future of Microbiota Medicine
  - The future of Microbiota Investments

Microbiota 2019 Key dates
- Early Registration: Sep. 17, 2019
- Short Oral Submission: Sep. 23, 2019
- Poster Submission: Sep. 28, 2019

Microbiota 2019 Speakers

- Peter C. Korduruk
  Teaching Hospital of the University of Jena, Germany
- International Space Station and Hospital Environments: Composition and function of microbiomes in confined built environments
  Christine Moisil-Eichinger
  Medical University Graz, Austria
- Microbiota and cancer: Between Detection and Prognosis
  Romain Villeger
  University of Clermont-Auvergne, France
- microRNA in host-microbiome interaction and probiotics
  Elena M Comelli
  University of Toronto, Canada
- Skin microbiota 2019: From basics to applied cosmetics and skin care
  Florence Abdallah
  University Paris-Sud - Inserm, France
- Intestinal barrier, gut microbiota and psoriasis
  Markusz Sikora
  Medical University of Warsaw, Poland
- Risk for Diabetes and Cardiovascular diseases in the Qatari population: Can the salivary microbiome predict it?
  Souhaila Al Khodor
  Sidra Medicine, Qatar
- Gut microbiota and graft-versus-host disease in patients after bone marrow transplantation: FMT as a prevention or treatment?
  Jaroslaw Bilinski
  Medical University of Warsaw, Poland
- Fecal Preservation by Freeze-Drying: Applications and Perspectives
  Julie Reyguer
  Université Paris Descartes, France
- Metabolic and Metagenomic Consequences of E. coli Infections
  Matteo Serino
  Inserm and Digestive Health Research Institute, France
- Skin Bacterial Microbiota Communication: Key Role In Cutaneous Homeostasis
  Marc G.J. Feuilloley
  University of Rouen Normandy, France
- Microbiota Medicine of tomorrow: How do microbiota and metabolites will affect our classical thinking and make us rethink and redesign our strategies
  Marvin Edeas
  Université Paris Descartes, INSERM 1016, France
- Special session on Built Environment Microbiome
  Markus Egert
  Furtwangen University, Germany
- Gut bacterial metabolites as markers and mediators of cardiovascular aging
  Marcin Ufnal
  Medical University of Warsaw, Poland
- Dialogue between the skin and the microbiota: The immune system is under control
  Chantal Pichon
  French National Centre for Scientific Research, France
- Brain-Gut-Microbiota Axis in Alzheimer’s Disease
  Agata Msiač
  Wroclaw Medical University, Poland
- Modulating the microbiota of the hospital environment by probiotic cleaning: impact on infections and antimicrobial resistance
  Elisabetta Caselli
  University of Ferrara, Italy
- Hyaluronan, a new neuroimmune modulator of the microbiota-immune-gut-axis
  Cristina Giaroni
  University of Insubria, Italy
- Carcinogenic microbiota of oral cavity
  Tomasz M. Kargiński
  Poznań University of Medical Sciences, Poland
- Intergenerational Transfer of the Atopic-Disease Potential from the Murine Maternal Gut Microbiota Grafted with Human Faecalibacterium Prausnitzii Pathobionts
  Heenan Stanley Kim
  Korea University, Korea
- Microbiota Dysbiosis is Associated with HPV-Induced Cervical Carcinogenesis
  Wojciech Kwaczynski
  Medical University of Lublin, Poland
- Psychotrophic Drugs and Microbiota - Important and Little Known Interaction
  Igor Loniewski
  Pomeranian Medical University, Poland
7th World Congress on
Targeting Microbiota
October 10-11, 2019 - Park Inn Hotel, Krakow, Poland
Scientific Agenda

Day 1 – Wednesday, October 9, 2019

17h00 – 18h30 Registration – Badges & Material delivery at the Hotel.

Day 2 – Thursday, October 10, 2019

7h45 Welcoming & Registration of attendees

8h50 Introduction notes by the President of ISM Targeting Microbiota 2019: Prof. Peter Konturek and by the Chairman of the Scientific Committee: Prof. Marvin Edeas

Session 1: Microbiota 2019: Recent Advances & Challenges

Chairs: Marvin Edeas, Peter Konturek

9h00 Role of Intestinal Microbiota in Intestinal Inflammation with Respect to Stress

Peter Konturek, Teaching Hospital of the University of Jena, Germany

9h20 Metabolic and Metagenomic Consequences of E. coli Infections

Matteo Serino, Inserm and Digestive Health Research Institute, France

9h40 Brain-Gut-Microbiota Axis in Alzheimer’s Disease

Agata Mulak, Wrocław Medical University, Poland

10h00 Risk for Diabetes and Cardiovascular Diseases in the Qatari population: Can the salivary microbiome predict it?

Souhaila Al Khodor, Sidra Medicine, Qatar

10h20 Diet Type, Antibiotic Intake and Gut Microbiota: A Lesson from a Large Cross-Sectional Study

Tewodros Debebe, BIOMES NGS GmbH, Germany

10h30 Coffee Break, Network & Poster Session

11h15 Biomedical Approach in Autism Spectrum Disorders – The Importance of Assessing Inflammation

Tatjana Mijatovic, R.E.D. Laboratories, Belgium

11h25 MicroRNA in Host-Microbiome Interaction and Probiotics

Elena Comelli, University of Toronto, Canada

11h45 Microbiota and cancer: between Detection and Prognosis

Romain Villegier, University of Clermont Auvergne, France

12h05 Microbiota Dysbiosis is Associated with HPV-Induced Cervical Carcinogenesis

Wojciech Kwasniewski, Medical University of Lublin, Poland

12h25 Lunch Break, Network & Poster Session

Chairpersons: Marc G.J. Feuilloley, Magdalena Strus

14h00 The Impact of Lactobacillus, Bifidobacterium, E.Coli and Lactoferin on the Phenomenon of Translocation in the Low-Birth-Weight Preterm Neonates

Magdalena Strus, Jagiellonian University Medical College, Poland

14h20 Carcinogenic Microbiota of Oral Cavity

Tomasz M. Karpiński, Poznan University of Medical Sciences, Poland
14h40 Short oral presentations

Gut Microbiome Shifts during Pregnancy can Predict Gestational Diabetes Onset
Annalisa Terranegra, Sidra Medicine, Qatar

Setting Standards in Microbiome and Multi-Omics Research to Power Novel Discovery
Heloise Breton, DNA Genotek, Canada

Reproducibility of Statistical Methods in Comparative Metagenomics
Vera Odintsova, Knomics LLC, Russia

Strict Anaerobic Bacteria Involvement in Gut-Brain Axis: A Novel Regulator of Pain and Well-Being
Sandie Gervason, Clermont-Auvergne University, France

Immediate Elevation of GABA in Rat Brain after Feeding with Lactobacillus Rhamnosus JB-1
The Gut-Brain Axis Study of Animal Model of Depressive Disorder
Anna Orzylowska, Medical University of Lublin, Poland

Impact of Chronic Social Stress in Gut-Brain-Axis in Female C57BL/6 Mice
Malena Dos Santos Guilherme, University Medical Center Mainz, Germany

The Aged Microbiota in Alzheimer’s Disease – An Investigation in Model Mice
Kristina Endres, University Medical Center JGU Mainz, Germany

15h50 Coffee Break, Network & Poster Session

Session 2: Microbiota Metabolites and Metabolome: Challenges & Perspectives

Chairpersons: Annalisa Terranegra, Marcin Ufnal

16h30 Introduction: Gut Bacterial Metabolites as Markers and Mediators of Cardiovascular Aging
Marcin Ufnal, Medical University of Warsaw, Poland

16h50 Application of targeted metabolomics to tackle host-microbiome interactions
Nicolas Schauer, Biocrates, Austria

17h10 Microbiota and Metabolomics: Effects of Bariatrics Surgery
Paulina Samczuk, Medical University of Białystok, Poland

17h30 Short oral presentations (7 minutes for presentation + 3 min for questions)

Gut Mycobiota and Fungal Metabolites in Human Homeostasis
Izabella Maria Mogilnicka, Medical University of Warsaw, Poland

Targeting Microbiota with Long Read Nanopore Sequencing
Michał Kaszuba, genXone SA, Poland

Pre- and Postmenopausal Women Have Different Core Urinary Microbiota
Annamarie Brusen Villadsen, North Denmark Regional Hospital, Hjørring Aalborg University, Denmark

Modulation of MAPK And NFkB Pathways by Human Gut Microbiota Metabolites- Urolithins and Their Phase II Metabolites.
Jakub P. Piwowarski, Medical University of Warsaw, Poland

Mucosally-Induced Effects of Lactococcus Lactis Bacteria Expressing Myelin Epitopes in Animal Multiple Sclerosis Model
Agnieszka Szczepankowska, Institute Of Biochemistry And Biophysics, Pas, Poland

Heat Stress-Induced Increase in Inflammatory Cytokines and Gut Microbiota Changes in Pigs
Yadnyavalkya Dattatraya Patil, Lincoln University, New Zealand

18h30 End of the day

20h00 Targeting Microbiota Dinner
Day 3 – Friday, October 11, 2019

7h55 Opening of the second day

Session 3 - Skin microbiota 2019: From basics to applied cosmetics and skin care
Chairpersons: Chantal Pichon, Heenam Stanley Kim

8h00 General Introduction of the session
Skin-Bacterial Microbiota Communication: A New Element in Cutaneous Neurogenic Inflammation
Marc G.J. Feuilloley, University of Rouen Normandy, France

8h20 Dialogue between the Skin and the Microbiota: The Immune System is Under Control
Chantal Pichon, French National Centre for Scientific Research, France

8h40 Intergenerational Transfer of the Atopic-Disease Potential from the Murine Maternal Gut Microbiota Grafted with Human Faecalibacterium Prausnitzii Pathobionts
Heenam Stanley Kim, Korea University, Korea

09h00 Intestinal Barrier, Gut Microbiota and Psoriasis
Mariusz Sikora, Medical University of Warsaw, Poland

09h20 Skin Microbiota and Formulation: Recent Advances and Perspectives
Strategies to Modulate and Affect Skin Microbiota in Health and Diseases?
Florence Abdallah, University Paris-Sud, France

10h00 Coffee Break, Network & Poster Session

Session 4: Session on Built Environment Microbiome
Chairperson: Markus Egert

10h40 General Introduction of the session
Special Session on Built Environment Microbiome
Markus Egert, Furtwangen University, Germany

11h00 International Space Station and Hospital Environments: Composition and Function of Microbiomes in Confined Built Environments
Christine Moissl-Eichinger, Medical University Graz, Austria

11h20 Modulating the Microbiota of the Hospital Environment by Probiotic Cleaning: Impact on Infections and Antimicrobial Resistance
Elisabetta Caselli, University of Ferrara, Italy

11h40 Targeting Olfactory Receptors and Microbiota modulations: Effects of Aroma
Carole Nicco, Université Paris Descartes, INSERM 1016, France

11h50 Short oral presentations
STW 5 (IBEROGAST®) and Microbiome: In Vitro and in Vivo Studies
Ramy Ammar, Bayer Consumer Health, Germany

Fermented Milk by Lactobacillus Delbrueckii Cidca133, Carrying the Vaccinal Plasmid Pexu:HPS65 Ammeliorates Intestinal Mucositis in Murine Model
Mariana Martins Drumond, Federal Center for Technological Education of Minas Gerais, Brazil

Targeting Faecalibacterium Prausnitzii with Prebiotic Xylo-Oligosaccharides Prevents from Non-Alcoholic Fatty Liver Disease (NAFLD)
Satu Pekkala, University of Jyvaskyla, Finland

The Presence of Bacteria Varies between Colorectal Adenocarcinomas, Precursor Lesions and Non-Malignant Tissue
Caspar Bundgaard-Nielsen, North Denmark Regional Hospital, Hjørring Aalborg University, Denmark

12h30 Lunch Break, Network & Poster Session

Session 5: Microbiota & medicine of tomorrow:
Development of effective therapeutic strategies to manipulate the gut microbiota
Chairperson: Elena Comelli

13h30 Gut Microbiota and Graft-versus-host Disease in Patients after Bone Marrow Transplantation: FMT as a prevention or treatment?
Jaroslaw Bilinski, Medical University of Warsaw, Poland

13h50 Fecal Preservation by Freeze-Drying: Applications and Perspectives
Julie Reygner, Université Paris Descartes, France

14h10 Hyaluronan, A New Neuroimmune Modulator of the Microbiota-Immune-Gut-Axis
Cristina Giaroni, University of Insubria, Italy

14h30 Psychotropic Drugs and Microbiota - Important and little-Known Interaction
Igor Loniewski, Pomeranian Medical University, Poland

14h50 Coffee Break, Network & Poster Session

Chairperson: Carole Nicco

15:20 Short oral presentations

Can Faecal Transplantation From Patients Diagnosed With Depression Into Rats Induce A Depressive-Like Phenotype?
Julie Kristine Knudsen, Aalborg University, Denmark

Morphology of Blood Microbiota Accessed by Light and Electron Microscopy
Stefan Panaiotov, National Center of Infectious and Parasitic Diseases, Bulgaria

Early Introduction of Solid Foods: Ingestion Level Matters more than Prebiotics Supplementation for Shaping the Gut Microbiota
Charlotte Paës, INRA, France

Comparison of Fecal Microbiota and Selected Parameters Between Healthy and Postpartum Dysgalactia Syndrome in Sows
Yeong-Hsiang Cheng, National I-Lan University, Taiwan

Importance of Therapy with Intestinal Alkaline Phosphatase against Experimental Colitis in Obese Mice with Voluntary Physical Activity
Role of Myokines, Proinflammatory Factors and Microbiota
Thomas Brzozowski, Jagiellonian University Medical College, Poland

Importance of Intestinal Microbiota Indicators for Clinical Purposes of Using Targeted Microbiological Therapy
Anna Maria Basińska, Institute of Microecology, Poland

Identification of Potential Microbiome Markers for an Early Diagnosis of AGVHD
Dhinoth Kumar Bangarusamy, SIDRA Medicine, Qatar

The Microbial Composition of Appendix in Complicated versus Uncomplicated Acute Appendicitis Patients
Eveliina Munukka, Microbiome Biobank, Faculty of medicine, University of Turku, Finland

Altered Abundance of Indicator Species of Intestinal Microbiota of Patients with Recurrent Rhinosinusitis
Michał Michalik, MML Medical Center, Poland

Corporate Development in the Microbe Space: Has Investment Outpaced Science?
Peter Bak, Back Bay Life Science Advisors, USA,

17h10 Concluding remarks
Marvin Edeas, University Paris Descartes, INSERM 1016, France

Targeting Microbiota 2019 Scientific & Innovation Awards

17h30 End of Targeting Microbiota 2019
